MEMORANDUM FOR: Chief, Telecommunications Division, MSG/OD&E

FROM: Edward J. Maloney
Director of Information Technology, DA

SUBJECT: Memorandum of Understanding [] 25X1

REFERENCE: OD&E-0532-86, dtd 14 May 86, Same Subject

1. The Office of Information Technology (OIT) agrees that the Memorandum of Understanding (MOU) should be updated. We have designated [] as the OIT focal point for this effort. He can be contacted at [] It is requested that a National Programs Telephone System (NPTS) point of contact be provided for purposes of coordinating this effort. [] 25X1
25X1

2. The modification requested in paragraph two of reference may have an adverse affect on Agency technical and operational resources. Therefore, we cannot concur in granting NPTS this type of connectivity. In addition, we cannot concur in the change suggested in Attachment B concerning Section IV, Responsibilities in the above referenced memorandum, OD&E-0532-86, since all coordination regarding changes in requirements which may impact the Agency secure network must be conducted by the manager of that system. [] 25X1

3. In recognition of the expansion of the secure voice network and the installation of the new secure voice switches, OIT is initiating action to publish a policy statement which will address all aspects of the Agency secure voice network. This will include OIT's responsibilities and relationships within the Agency as well as with other government agencies.

MEMORANDUM FOR: Director of Information Technology

FROM:

25X1

Chief, Telecommunications Division, MSG/OD&E

SUBJECT:

Memorandum of Understanding

25X1

1. In April of 1984, a Memorandum of Understanding was signed regarding the inter-connectivity between CISVN and the National Programs Telephone System (NPTS), (formerly the Air Force Pentagon Secure Voice Exchange). It is now time for the MOU to be updated and while most of the changes are cosmetic, there is one area that we wish to revise.

25X1

2. Presently, NPTS subscribers calling into CISVN are blocked at CIA from extending calls outside of the CISVN. (It is my understanding that this restriction is also placed on all other interconnects, i.e., State, NSA, DIA, etc.) We would like to see this restriction modified so that NPTS subscribers calling into CISVN would be allowed access to other, selected NPTS elements. These elements provide real-time tasking and exploitation support to national programs and while NPTS has secure voice service to them, the routing path thru CISVN is more direct. Further, we wish to ensure that the most expeditious routes/paths are available to support these programs. The exchanges that we seek this service for are 21xxxx, 22xxxx, 23xxxx, 24xxxx, 25xxxx, 26xxxx.

25X1

3. Should you require additional information regarding this request, or if you believe discussions are required, please have members of your Office contact
